About the Test de français international (TFI)

The *TFI*™ test is a French-language proficiency test for people whose native language is not French. It is a valid measurement of the everyday French-language listening and reading proficiency skills of people in daily life and international workplace settings. A standardized test that measures French proficiency on a single, continuous scale, the TFI test is for language learners of all levels, regardless of their occupation or background. Test scores indicate how well someone understands written and spoken French. The test does not require specialized knowledge beyond that of a person who uses French in everyday work activities.

Designed along the same lines as the Test of English for International Communication (TOEIC), the TFI test was developed to meet the requirements of the major French-speaking groups.

TFI Test Format

The TFI test is a one hour and fifty minute multiple-choice test that consists of 180 questions divided into two parts:

- **Listening Part:** The Listening part tests how well you understand spoken French. It consists of three sections and contains 90 questions, and it is administered by CD. You will be asked to answer questions about a variety of materials recorded in French. Total time: approximately 42 minutes.

- **Reading Part:** The Reading part of the test includes three sections testing how well you understand written French. You will read a variety of materials and respond at your own pace to 90 questions based on the content of the materials provided to you. Total time: 68 minutes.

You will respond to test questions by marking one of the letters (A), (B), (C), or (D) with a pencil on a separate answer sheet. Although the actual testing time is approximately one hour and fifty minutes, additional time is needed to allow you to complete the TFI Background Questionnaire on the answer sheet. Therefore, you should allow approximately 2.5 hours to take the test.

Who Takes the TFI Test?

- Personnel who use French in real-life work settings.
- Candidates for training to be conducted in French.
- Individuals in French-language training programs.

Frequently Asked Questions

Why Take the TFI Test?

Using the TFI test, training organizations can group learners homogeneously, validate learner progress with an unbiased external test, and boost learner motivation.

As a fair and objective measure of French proficiency, the TFI test enables you to:

- Verify your current level of French proficiency.
- Qualify for a new position and/or promotion in a company.
- Enhance your professional credentials.
- Monitor your progress in French.

Department heads may determine the level to be attained before a candidate receives a certain degree or diploma. A minimum TFI test score may also be required of applicants for a particular course of study.

When and Where Can I Take the TFI Test?

The TFI test is available throughout the world. Testing can be arranged through schools, corporations, or other organizations that ask students or employees to take the TFI test. If testing has not been arranged through your organization, you can contact your local ETS representative to find out when and where you can take the test.

How Often Can I Take the TFI Test?

One month should lapse between each TFI test. If you take the test more than once a month, your test will not be scored and you will not receive a refund. You will need to pay again to retake the test once one month has lapsed. Please contact your local ETS representative.

How Much Does the TFI Test Cost?

TFI test prices vary worldwide. To inquire about pricing in your area, contact your local ETS representative.

Frequently Asked Questions (*continued*)

What Score Do I Need To “Pass” the TFI Test?

The TFI test is not the kind of test that one “passes” or “fails.” Not every job or task requires the same level of French proficiency. The TFI test measures different levels of French ability or proficiency. It helps learners set goals and measure their progress as their French improves; it enables people to demonstrate what they currently can accomplish in French. The single, continuous scale also makes it possible for learners to set attainable goals and to measure their progress as their French improves. Some companies use the TFI test to set their own score standards, based on the levels of French necessary to carry out particular responsibilities. Other companies offer French training to help their employees reach target TFI test scores.

From What Kind of Contexts Are the TFI Test Questions Drawn?

These are some examples of the settings and situations you may find in TFI test questions:

- **Corporate development:** research, product development
- **Dining out:** business and informal lunches, banquets, receptions, restaurant reservations
- **Entertainment:** cinema, theater, music, art exhibitions, museums, media
- **Finance and budgeting:** banking, investments, taxes, accounting, billing

- **General business:** marketing, management, business planning, sales, contracts
- **Health:** visiting doctors, dentists, clinics, hospitals
- **Housing/corporate property:** construction, buying and renting, electric and gas services
- **Manufacturing:** assembly lines, plant management, dispatching, quality control

Preparing to Take the TFI

How to Get Ready to Take the TFI Test

The TFI test is not based on the content of any particular French course, but rather on your proficiency—your overall ability to use French. Improvement in proficiency may take some time and is generally achieved through a combination of practice and study.

Before taking the TFI test, there are several things you can do to prepare for the test and improve your French proficiency:

- Become familiar with the test format and how to mark your answers on the answer sheet. You can then focus your attention on the questions themselves, rather than on the format. Carefully review the test directions and the sample questions on pages 7–11 and the sample Background Questionnaire and sample answer sheet on pages 13–15.
- Immerse yourself in the language as frequently as possible and in as many ways as possible if it has been some time since you have had contact with French. Reading, watching TV and videos, listening to recordings, taking a French course, and speaking with friends and colleagues are some of the ways to practice French.
- Web Resource Guide
The official TFI website has many resources you may find helpful to familiarize yourself with the test:
 - test preparation material
 - scoring information
 - frequently asked questions (FAQs)

During the Test

- Work quickly and carefully.
- Do not spend too much time on any one question.

- Mark your answers on your answer sheet and not in the test book.
- Mark only one answer for each question. If you mark more than one answer, that question will be counted wrong—even if one of the answers you marked is correct.
- You will receive credit only for answers marked in the circles on the answer sheet. Your score will be based on the number of questions you answer correctly. There is no penalty for guessing.
- Try to answer every question to the best of your ability.
- Pay close attention to the time during the Reading section of the test. In the Reading section (68 minutes) you have to pace yourself, so work quickly and if you do not know the answer to a question, come back to it later.
- You may not use note paper.

Identification Requirements

All test takers must read Part 1. Depending on whether you will be testing within or outside your country of citizenship, you must also read either Part 2 or Part 3, as appropriate.

Part 1: Information for all Test Takers

- You must have acceptable and valid ID with a signature and photograph to be admitted to a test center. Identification requirements are strictly enforced. It is your responsibility to read and understand the instructions and requirements.
- If you arrive at the test center without the required identification, the test administrator will not admit you, you cannot test, and you forfeit your test fee.

Preparing to Take the TFI (*continued*)

When registering for the test, **you must use exactly the same name that appears on the primary identification document you will present at the test center**. Make sure to provide your entire first (given name) and entire surname (family name). DO NOT register under a nickname. If the name shown on your primary identification does not match the name on the registration, you will not be permitted to test.

- Only misspellings of your name can be corrected at check-in—**NAME CHANGES WILL NOT BE MADE**. If your name has changed for any reason, including marriage, you must still present primary identification under the name you registered, or you will not be permitted to test.
- If the test center administrator questions the ID you present, you will be required to present additional proof of identity.
- If positive confirmation cannot be made, you may be refused admission to the test center and forfeit your test fee. Admittance to the test center does not imply that your form of identification is valid or that your scores will be reported.

Test center personnel will check your identification before assigning you a seat at the test center. The administrator will check your signature to verify that you are the person in your photo identification.

Acceptable Primary Identification Documents

- Passport with photograph and signature
- Driver's license with photograph and signature
- State identification with photograph and signature
- National identification with photograph and signature
- Military identification with photograph and signature

Acceptable Secondary Identification Documents

If your primary identification is missing either a photograph or signature, you must present one of the following secondary IDs that can be used to meet the photograph or signature requirement; you must present one of the following secondary IDs in addition to your primary ID. Secondary IDs that can be used to meet the photograph or signature requirements are:

- **A government-issued identification document** that has not expired, including but not limited to: passport, driver's license, state identification, national identification, or military identification. (There are some exceptions: see "Unacceptable Identification Documents" in the next column.)
- **Student ID**

Unacceptable Identification Documents

- Any expired ID
- Draft classification
- Credit card of any kind
- Social Security card
- Learner's permit or any temporary identification document
- International driver's license
- International student ID
- Notary-prepared letter or document
- Employee identification card

If you cannot meet the specified ID requirements or if you have questions about ID, please contact your local ETS representative before registering for the test.

Part 2: If Testing **WITHIN** Your Country of Citizenship

Only one form of primary ID is needed if your primary ID document contains a photograph and signature. Please see the list of acceptable primary ID documents on this page. However, if the test administrator has any concerns about the primary ID document, you will be required to present a secondary ID from the list on this page.

If your primary ID does not contain your signature, you must either sign the document or present an additional ID from the list of acceptable secondary identification documents. The secondary ID cannot be expired and must contain a recent, recognizable photograph and your signature.

Part 3: If Testing **OUTSIDE** Your Country of Citizenship

You **MUST PRESENT YOUR PASSPORT** as your primary identification document (citizens of European and Schengen Zone countries, see special requirements on the following page). If you do not meet this requirement, your test scores may not be reported.

If your passport is not written in **English language letters**, you must also present an additional ID from the list of acceptable secondary identification documents (see Part 1) that contains a recent, recognizable photo and is in English.

If your passport **does not contain your signature**, you must either sign your passport or present an additional ID from the list of acceptable secondary identification documents (see Part 1).

Preparing to Take the TFI (*continued*)

European Union/Schengen Zone Countries

If you are taking the test within a European Union or Schengen Zone country outside your own, you may use your valid national or European identity card if you have one. The card you present must contain a recent, recognizable photograph, your date of birth, and your signature. If your form of identification is not in English language letters and the test administrator cannot read the language in which it is written, you may not be allowed to test. If your official ID does not contain your signature, you must present an additional document from the list of acceptable secondary identification documents (see Part 1) that does contain your signature.

If your scores are canceled, they will not be reported, and your fees will not be refunded.

Sample Questions

With 180 questions, the TFI test measures a wide range of French proficiency. The following sample questions do not indicate the full range of difficulty you would find in an actual Test de français international.

General Directions

The following general directions are taken directly from the test book. After the general directions are specific directions for each part of the test, along with sample questions for each of the parts.

Il dure environ deux heures et est divisé en six sections. Chaque section débute par des instructions spécifiques. Assurez-vous de bien les comprendre avant de commencer à répondre. Le surveillant peut vous aider si vous avez des difficultés.

Certaines questions vous paraîtront plus difficiles que d'autres mais essayez de répondre de votre mieux à toutes les questions. Le nombre de questions auxquelles vous répondez correctement déterminera votre score.

N'écrivez jamais dans ce livret. **Toutes vos réponses doivent être notées sur votre feuille de réponses.** Lorsque vous répondez, assurez-vous de bien noircir l'espace de la lettre de votre choix comme dans l'exemple ci-dessous afin qu'il n'y ait pas de doute quant à votre réponse.

D'autres ont peur des moyens de transport eux-mêmes. Ils bénéficient d'une diminution du temps de travail, d'une augmentation des jours de vacances, d'améliorations dans le confort de la vie quotidienne, de centaines de chaînes de télévision et d'une plus grande variété alimentaire. Cependant, ils se plaignent d'être épuisés, surmenés, déprimés, de passer leur vie à courir. Seraient-ils donc moins forts que leurs aïeux de l'âge paléolithique qui ont dû affronter le froid, l'inconfort des cavernes, les famines saisonnières, et de nombreux prédateurs?

Nos ancêtres préhistoriques étaient doués d'une physiologie parfaitement

adaptée à la lutte. C'est cette force vitale qui a permis la survie de notre espèce. En fait, les mécanismes physiologiques de nos contemporains ne sont pas moins efficaces. Le problème réside plutôt dans l'incapacité croissante des gens à gérer efficacement le stress quotidien qui est dû à des agresseurs plus nombreux, plus complexes et plus sournois. L'être d'aujourd'hui ne peut souvent que subir ces agressions sans frapper ni fuir et l'énergie non évacuée le ronge de l'intérieur déclenchant ou aggravant bien des problèmes médicaux.

TFI Background Questionnaire and Answer Sheet

In order to provide enhanced feedback to TFI clients and examinees, the TFI Program will ask you to complete the TFI Background Questionnaire at the testing session before you take the TFI.

Background Questionnaire

The TFI Background Questionnaire asks about your education, work, English language, and TFI test-taking experience. Your responses to the questionnaire enable your organization to learn more about the backgrounds of people who take the test and some of the factors that affect TFI test scores and improvement in French. Your responses to the questionnaire are kept confidential and do not in any way affect your TFI test scores. We encourage you to answer all of the questions. A sample of the questionnaire is included on page 13 of this handbook.

Answer Sheet

A sample of the answer sheet appears on pages 14 and 15 of this handbook.

Accent Marks

If your name (family name and first name) is written with any accent marks, you should complete the top half of section 1 on side 1 of the answer sheet. Above the boxes where you will write your name, there is an area that contains accent marks. You should fill in the circle that corresponds to the accent mark above each letter that contains an accent.

Group Code

Your test administrator may ask you to enter a number on side 1, section 5 of the answer sheet. The purpose of this group code is to enable TFI clients to keep track of the performance of a group of people who take the TFI test two or more times as part of a specific French training program. The test administrator will give you the appropriate number to enter in the group code section if your organization has asked for this option.

Custom Codes

Your test administrator may ask you to enter a number or numbers on side 2, section 12 of the answer sheet. The purpose of custom codes is to keep track of the performance of certain TFI examinees or groups of examinees. The test administrator will give you the appropriate number or numbers to enter in the custom codes section if your organization has asked for this option.

Before the actual test begins, if you have any questions about the TFI Background Questionnaire and Answer Sheet, please ask your test administrator.

TFI Scores

Test Fairness and Score Use

The ETS TFI Program and its authorized local representatives have taken steps to ensure, to the extent possible, that tests and test scores are fair for all test takers, regardless of gender, age, nationality, and test taker industry background.

Score Reports

The scores you will receive are determined by the number of questions you answer correctly. The number of correct responses on each section, Listening and Reading, is converted to a number on a scale of 5 to 495. Adding your Listening and Reading scores together gives you a total TFI score on a scale ranging from 10 to 990. The statistical procedure used to convert scores to a common scale for each section ensures that TFI section test scores can be compared across different forms of the test. There is no penalty for wrong answers.

If you take the test through your employer or sponsoring organization, your scores are provided to that organization. It is the responsibility of your employer or organization to provide you with a score report. If you take the test independently, you will receive your score report directly from the local representative.

Reliability

Reliability is defined as the proportion of observed score variance that is due to true score variance. It is an indicator of the extent to which test scores will be consistent across different conditions of administration and/or administration of alternate forms of a test. The type of reliability used in the TFI test is reported as an internal consistency measure using the KR-20 reliability index. The KR-20 reliability index assesses the extent to which all items measure the same construct. The more homogeneous the test items, the more consistently the examinees will perform. The reliability of the TFI Listening and Reading section scores across all forms of our norming samples has been approximately 0.95.

Standard Error of Measurement (SEM)

Errors of measurement occur when an examinee performs differently on one occasion or test form than on another for reasons that may or may not be related to the purpose of the test. A person may try harder, be more (or less) tired or anxious compared to some other occasion, have greater familiarity with the content of questions on one test form than on another test form, or simply guess more questions correctly on one occasion than on another. These reasons for inconsistency are generally referred to as errors of measurement. The Standard Error of Measurement (SEM) is an estimate of average difference between true scores and obtained test scores, and is about 22 scaled score

points for each of the TFI Listening and Reading section. An examinee's true score could be estimated by ± 22 scaled score points around the test score obtained from one administration. For example, if you obtain a scaled score of 300 on the TFI Listening section, 68% of the time your true score will fluctuate between approximately 278 and 322.

Repeat Test Takers

If you take another version of the TFI test, you will probably obtain slightly different scores from those you receive the first time. A question like this usually arises, "How big of a difference do I need to get between two Listening scores or between two Reading scores before I can say that there is a real difference in my level of proficiency?" This question involves two independent tests given at two different times. The error of measurement associated with the score obtained from one administration is called the SEM. The errors of measurement associated with two administrations are called the Standard Error of Difference ($SEdiff$). The $SEdiff$ for each of the TFI Listening and Reading sections is about 32 scaled score points.

If a person began training with a Listening score of 300 and, following training, received a score of 340 on a different test form, has that examinee really improved in Listening or was this increase just a statistical fluke? To determine whether this was a true increase in the TFI score, the examinee would construct a band of $\pm 1 SEdiff$, or ± 32 points, around the obtained scores. In this case, the examinee has truly improved because the post-training score fell outside of the $SEdiff$ (i.e., 268–332). Using this band, we can say with 68% confidence that the examinee has truly increased his or her proficiency level between the two tests.

Test Score Data Retention

To provide you and your employer with a historical summary of your scores, scores will be kept on file and reported for two years.

Rescore Requests

If you feel that your scores are not an accurate reflection of your ability in French, you should contact your ETS representative within six months of the test date. The representative will rescore your answer sheet and will give you a second score report. If a discrepancy is found between the first score report and the second one, the representative will pay for rescore your answer sheet. However, if a discrepancy is not found, you may be charged a small fee for rescore costs.

Policy and Guidelines for the Use of TFI Scores

Introduction

These guidelines are designed to provide information about the appropriate use of TFI test scores for corporations or schools that use the scores in making hiring, evaluation, and career promotion decisions, as well as school-related decisions. They are also intended to protect test takers from unfair decisions that may result from inappropriate uses of scores. Adherence to the guidelines is important.

The TFI tests are designed to assess French Language listening and reading proficiency relevant to today's international market. As the test measures with known statistical properties and high quality technical characteristics, the scores from these tests, when used properly, can improve the hiring, evaluation, and career promotion decision processes of local and multinational corporations, and other organizations where French communication skills are critical job requirements.

As more and more students go to colleges to acquire job skills in the global marketplace, schools are also increasingly using TFI scores to evaluate student proficiency in French.

The TFI Program and its authorized local representatives have a particular obligation to inform users of the appropriate uses of TFI scores and to identify and try to rectify instances of misuse. To this end, the following policies and guidelines are available to all TFI test takers, institutions, and organizations that are recipients of TFI scores.

Policies

In recognition of their obligation to ensure the appropriate use of TFI scores, the TFI Program and its authorized local representatives developed policies designed to make score reports available only to approved recipients, to protect the confidentiality of examinees' scores, and to follow up on cases of possible misuse of scores. The policies are discussed below.

Confidentiality. TFI scores, whether for an individual or aggregated for an institution, are confidential and can be released only by authorization of the individual or institution or by compulsion of legal process.

We recognize examinees' right to privacy with regard to information that is stored in data or research files held by Educational Testing Service and its local representatives, and our responsibility to protect examinees from unauthorized disclosure of the information.

Encouragement of appropriate use and investigation of reported misuse. All organizational users of TFI scores have an obligation to use the scores in accordance with the guidelines below, i.e., using multiple criteria, accepting only official TFI scores, etc. Organizations have a responsibility to ensure that all

individuals using TFI scores are aware of these guidelines and to monitor the use of the scores, correcting instances of misuse when they are identified. The TFI Program and its authorized local representatives are available to assist institutions in resolving score-misuse issues.

Guidelines

- **Use Multiple Criteria**

Regardless of the decision to be made, multiple sources of information should be used to ensure fairness and to balance the limitations of any single measure of knowledge, skills, or abilities. These sources may include graduate or undergraduate grade point average, years of experience in the target position, and recommendations from past supervisors and colleagues. When used in conjunction with other criteria, TFI scores can be a powerful tool in making hiring, evaluation, promotion, or school-related decisions.

- **Accept Only Official TFI Score Reports**

The only official reports of TFI scores are those issued by ETS authorized local representatives or by ETS. If an organization administers a TFI test internally, with ETS knowledge and approval, it can obtain and keep score reports of that test. Scores obtained from other sources should not be accepted. If there is a question about the authenticity of a score report, the question should be referred to ETS authorized local representatives, who will then verify the accuracy of the scores and whether an official report was issued.

- **Maintain Confidentiality of TFI Scores**

All individuals who have access to TFI scores should be aware of the confidential nature of the scores and agree to maintain their confidentiality. Policies should be developed and implemented to ensure that confidentiality is maintained.

Normally Appropriate Uses of TFI Scores

The suitability of a TFI test for a particular use should be explicitly examined before using test scores for that purpose. The following list of appropriate uses of TFI scores is based on the policies and guidelines outlined on this page. The list is meant to be illustrative, not exhaustive, in nature. There may be other appropriate uses of TFI scores, but any uses other than those listed on the following page should be discussed in advance with TFI Program staff and its authorized local representatives to determine their appropriateness.

If a use other than those appropriate uses listed on the following page is contemplated, it will be important for the user to validate the use of scores for that purpose. The TFI Program staff and its authorized local representatives will provide advice on the design of such validity studies.

Policies and Guidelines for the Use of TFI Scores (*continued*)

Appropriate Uses

Provided all applicable guidelines are followed, TFI scores are suitable for the uses described below.

- Hiring of applicants for an open position within a corporation or organization where workplace/everyday-life French is a required job skill.
- Placement of applicants or candidates within a corporation or organization where workplace/everyday-life French is a required job skill.
- Promotion of candidates within a corporation or organization where workplace/everyday-life French is a required job skill.
- Measurement of workplace/everyday-life French proficiency levels of students in schools.
- Measurement of individuals' progress in workplace/everyday-life French proficiency levels over time.
